We all like to think we're pretty savvy when it comes to using our Macs, and in the case of the typical Macworld reader, that's usually true. But there's a funny thing we've noticed when we talk even to veteran Mac users: There's almost always some essential stuff—basic things that would make their Mac use easier or more efficient—that they've either...

[PDF | ePub | MOBI] **The Book of Why** Författare Judea Pearl & Dana Mackenzie

A Turing Award-winning computer scientist and statistician shows how understanding causality has revolutionized science and will revolutionize artificial intelligence "Correlation is not causation." This mantra, chanted by scientists for more than a century, has led to a virtual prohibition on causal talk. Today, that taboo is dead. The causal revolution,...
